PCC Pediatric EHR Solutions

2019 CPT Changes

Effective for services rendered **Jan 1, 2019** and after

PCC Pediatric EHR Solutions

2019 CPT Changes

REVISED:

99446 Interprofessional telephone/Internet/electronic health record assessment and management service provided by a consultative physician, **including a verbal and written** report to the patient's treating/requesting physician or other qualified healthcare professional , 5-10 minutes of medical consultative discussion and review

99447 …11-20 minutes

99448 …21-30

99449 …31 or more

PCC Pediatric EHR Solutions

2019 CPT Changes

NEW:

<u>99451</u> Interprofessional telephone/Internet/electronic health record assessment and management service provided by a consultative physician, **including a written report** to the patient's treating/requesting physician or other qualified healthcare professional, 5 minutes or more of medical consultative time

PCC Pediatric EHR Solutions

Interprofessional Telephone/Internet/Electronic Health Record Assessment and Management Service Comparison

Codes 99446, 99447, 99448, 99449 conclude with a verbal opinion report and written report from the consultant to the treating/requesting physician or other qualified healthcare professional. Code 99451 concludes with only a written report.

Review of pertinent medical records, laboratory studies, imaging studies, medication profile, pathology specimens, etc is included in the telephone/Internet/electronic health record consultation service and should not be reported separately when reporting 99446, 99447, 99448, 99449, 99451. The majority of the service time reported (greater than 50%) must be devoted to the medical consultative verbal or Internet discussion. If greater than 50% of the time for the service is devoted to data review and/or analysis, 99446, 99447, 99448, 99449 should not be reported. However, the service time for 99451 is based on total review and interprofessional-communication time.

PCC Pediatric EHR Solutions

2019 CPT Changes

NEW:

PCC Pediatric EHR Solutions

New Patient

"Solely for the purposes of distinguishing between new and established patients, professional services are those face-to-face services rendered by physicians and other qualified healthcare professionals **who may report evaluation and management services** reported by a specific CPT code(s). A new patient is one who has not received any professional services from the physician/qualified healthcare professional or another physician/qualified healthcare professional of the exact same specialty and subspecialty who belongs to the same group practice, within the past three years."
