# G2211 Interpretation from Medicare

[Medicare Learning Network - MM13473](#)

"The complexity that code G2211 captures isn't in the clinical condition ... The complexity is in the cognitive load of the continued responsibility of being the focal point for all needed services for this patient. There's important cognitive effort of using the longitudinal doctor-patient relationship itself in the diagnosis and treatment plan. These factors, even for a simple condition like sinus congestion, make the entire interaction inherently complex. In this example, you may bill G2211."

**How are your payers responding?**

# ASETT Complaint Form

## ASETT

### Administrative Simplification Enforcement and Testing Tool

ASETT is a web-based application which enables individuals or organizations to file a Health Insurance Portability and Accountability Act (HIPAA) and/or Affordable Care Act (ACA) complaint against a HIPAA covered entity for potential non-compliance with the non-Privacy/Security provisions of HIPAA.

### [ASETT Start Page](#)

**Step 1: ID the type of HIPAA/ACA complaint**

**Step 2: Provide your contact information**

**Step 3: Identify the Filed Against Entity**

**Step 4: Describe the HIPAA/ACA violation**

**Step 5: Review and Submit**

- ♥♥ Are you successfully billing these codes for cases of vaccine hesitancy / refusal?

## Medicaid / MCO "Pay and Chase" Denial / Recoupment

- Coordination of Benefits / Third-Party Liability issue for patients with commercial primary insurance coverage and Medicaid / MCO secondary
- Issue recently discussed on the AAP SOAPM LISTSERV
  - It was noted that federal regulations prohibit Medicaid / MCOs from
    - Cost avoiding EPSDT claims
    - Recouping pediatric Medicaid claims for cost avoidance
- Have you experienced associated denial and / or recoupment?
