

ICD-10 EHR & PM Configuration

Randy Lavin/Maria Horn
Users' Conference 2015

Course Description

ICD-10 is scheduled to go into effect on October 1, 2015. Preparing both **PCC EHR** and **Partner** ahead of time can help make this transition a bit easier for your practice. Course attendees will discuss various configuration options, including **PCC EHR** protocol changes, SNOMED to ICD-10 code linking, Electronic and Paper Encounter Form changes, ICD-10 snap codes, ICD-10 charge screens and more.

Discussion Outline

- **PCC EHR** Preparation topics:
 - SNOMED to ICD-10 diagnosis code linking
 - Protocols
 - Electronic Encounter Form

- **Partner** Preparation topics:
 - Paper Encounter Form
 - Charge screens
 - Snap codes
 - Form letters showing diagnoses/major diagnoses/allergies
 - Saved recaller/srs report criteria

- Question and Answer Session
