Important Improvements & Bug Fixes Coming Your Way

- Specify which prescriptions to send a cancel message for
- See when an item in Medication History has an active prescription
- Reroute prescriptions to a different pharmacy with one click
- Prescribe controlled substances without running into unexpected future stop date or days supply limit errors
- Reduce unnecessary duplicates in Medication History
- Carry forward changes made to entries in Med Hx when renewing with Blue Swish

Important Improvements & Bug Fixes Coming Your Way

- Automatically prescribe the minimum commercial package size for liquids and drops
- Reduce disruption to prescribing from historic entries or favorites if medication moves to off-market status
- Use the Patient Takes No Medication button error-free
- ...and so much more!
