Meaningful Use and PCC EHR

Tim Proctor (tim@pcc.com)
Users Conference 2015
Agenda

- MU basics and eligibility
- How to participate in MU
- Stage 1 and Stage 2 MU requirements
- Using PCC EHR to meet stage 1 and stage 2 MU
Goals

- An understanding of the Medicaid Meaningful Use Incentive Program and the process for getting incentives
- Identification of the areas at your practice that will need to be addressed to meet 2014 MU measures
Medicaid EHR Incentive Program

- Program to provide incentive payments for certain Medicaid health care providers to adopt and use EHR technology in ways that can positively affect patient care.
- Program allows providers to adopt, implement, or upgrade to certified EHR technology in their first year of participation.
- Must meet “Meaningful Use” objectives in second and subsequent years of participation.

PCC Pediatric EHR Solutions  Control Your Future™
Medicaid EHR Incentive Program

- Every state runs their own program
  - Application filed through your state
  - Deadlines can vary
  - States can add additional MU requirements
  - States provide REC (Regional Extension Centers) for assistance
- No Medicaid payment reductions if you choose not to participate
How Much Will You Get Paid?

Determining Your Medicaid %

ARRA Medicaid Patient Volume Report

This report assists in determining eligibility for ARRA EHR Incentive program by calculating your Medicaid Patient Volume by provider.

Select a date range, stage, and your Medicaid Plans. A summary of patient volume with totals and Medicaid percentages will be calculated.

Select a Date Range:
- X 90 Days from 04/02/15 to 06/30/15
- □ Calendar Year 2014

Select a stage to determine eligibility:
- □ Stage 1: Includes only visits with payments greater than $0
- X Stage 2: Includes all visits

- Contact PCC support for assistance with using “arra” report
- Refer to your state for how to calculate Medicaid %
- CHIP patients do not count
Eligibility

- Must be an “Eligible Professional” (EP)
  - Physicians (M.D., D.O.)
  - Nurse practitioners
  - Certified nurse-midwives
  - Dentists
  - Physician assistants who furnish services in a Federally Qualified Health Center or Rural Health Clinic that is led by a physician assistant.
- Special rules if working in RHC or FQHC and 30% of encounters attributable to “needy” individuals
Eligibility

- To participate as of 2015, you need to be using a 2014-edition certified EHR
- PCC is currently 2011-edition certified
- PCC has completed testing of 23 of 41 modules. Wave 3 testing of remaining 18 modules scheduled in September
- Final 2014-edition certification expected 4th Qtr 2015
Stages of MU

- **Stage 1**: Data capturing and sharing
- **Stage 2**: Advanced clinical processes
- **Stage 3**: Improved outcomes

Control Your Future™
Stages of MU

- First year of participation – AIU attestation. No MU reporting
- 2nd year - Stage 1 MU reporting based on 90 days
- 3rd year – Stage 1 MU reporting based on 365 days
- Subsequent years – Stage 2 MU reporting based on 365 days
- CMS timeline tool:

Example: You intend to apply for Medicaid incentive in 2015 for the first time.

- 2016 – Stage 1 MU reporting based on 90 day reporting period in 2016
- 2017 – Stage 1 MU reporting based on 365 day reporting period in 2017
- 2018 and beyond – Stage 2 MU reporting based on 365 day reporting period
Example 2

Example: You applied for Medicaid incentive in 2013 for the first time.

- 2013 – Attested for AIU
- 2014 – Stage 1 MU reporting based on 90 day reporting period in 2014
- 2015 – Stage 1 MU reporting (once PCC completes 2014-edition certification) based on 90 day reporting period in 2015
- 2016 and beyond – Stage 2 MU reporting based on 365 day reporting period
Registration

- Register with CMS  https://ehrincentives.cms.gov/

- Check your state's program status

- File application with your state
Registration Deadlines

- Check with your state
- Pay attention to attestation tail period – how long into the current year you can attest for the prior year (typically 60 or 90 days)
- Deadlines can vary by state
- Example: CA allowed for 2014 MU attestations through 6/14/15
Meaningful Use Objectives

- CMS has established objectives that all providers must meet in order to show Meaningful Use.
- Some objectives have a minimum percentage that providers need to meet.
- Other objectives specify an action that must be taken or a functionality of the EHR that must be enabled for the duration of the reporting period.
- Some objectives have exclusions where, if you qualify, you can be exempt from reporting on that objective.
2014 Stage 1 Meaningful Use

- 13 required core objectives. Must meet all in order to show Meaningful Use
- 9 menu objectives. Must meet your choice of 5 out of 9 (including at least one public health-related objective)
- 9 Clinical Quality Measures (CQMs). No threshold to meet, just need to report.
2014 Stage 2 Meaningful Use

- 17 required core objectives. Must meet all in order to show Meaningful Use
- 3 menu objectives. Must meet your choice of 3 out of 6 menu objectives
- 9 Clinical Quality Measures (CQMs). No threshold to meet, just need to report.
MU Resources

- Refer to 2014-Stage1MUChart.pdf and 2014-Stage2MUChart.pdf handouts
- Include numerator, denominator and details of how to meet measure in PCC EHR for all core and menu objectives
- PCC's 2014-edition MU and CQM reporting is a work-in-progress.
- Stay tuned for more documentation on learn.pcc.com explaining how to meet MU in PCC EHR.
CQM Reporting

- Report on 9 Pediatric CQMs regardless of what stage of MU you are in
- For CQM list, see handout of 2014 Pediatric CQMs
- Report on 90 day period. No threshold to meet.
- As with MU measures, CQMs are reported via your state application
Meeting Meaningful Use in PCC EHR
Visit Reason Exclusions

- You will have ability to exclude certain visit reasons from MU report calculations
- Examples: lab or nurse-only visits, other “fake” visit reasons
Eligible Professional Selection(s)

Eligible Professionals
Select the providers for whom you would like to calculate Meaningful Use Measures.

Edit  All Providers Selected

- You will have ability to run MU reports for more than one provider at once
- You will also have the ability to run MU reports aggregated for all providers (useful for PCMH)
Eligible Professional Selection(s)

- Most 2011 MU reports were based on signing provider.
- Most 2014 MU reports will be based on visit/encounter provider.
Eligible Professional Selection(s)

- Be sure to map Partner providers to EHR users
- Some MU reports are based on EHR user
## 2014 Edition Meaningful Use Measures

### CPOE (Computerized Provider Order Entry) For Medication Orders – Stage 1

<table>
<thead>
<tr>
<th>MU Criteria</th>
<th>%</th>
<th>Denominator</th>
<th>Numerator</th>
<th>Meeting Measure in PCC EHR</th>
<th>Exclusions</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPOE (Computerized Provider Order Entry) For Medication Orders Objective 1 of 13</td>
<td>&gt;30</td>
<td>Number of unique patients with at least one medication in their medication history seen by the EP (eligible professional) during the EHR reporting period. Optional Alternative: The number of medication orders created by the EP during the EHR reporting period.</td>
<td>The number of patients in the denominator that have at least one medication ordered using CPOE. Optional Alternative: The number of medication orders in the denominator that are recorded using CPOE.</td>
<td>The provider must use PCC eRx to prescribe medications. If a patient’s medication history includes only medications entered as historical medications, that patient will not count in the numerator.</td>
<td>None</td>
</tr>
</tbody>
</table>

- PCC MU report will report both options
- Use PCC eRx to prescribe meds
### CPOE (Computerized Provider Order Entry) For Medication Orders – Stage 2

**MU Criteria**

<table>
<thead>
<tr>
<th></th>
<th>%</th>
<th>Denominator</th>
<th>Numerator</th>
<th>How to Meet the Measure in PCC EHR</th>
<th>Exclusions</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPOE (Computerized Provider Order Entry) For Medication, Laboratory and Radiology Orders</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Objective 1 of 17</td>
<td>&gt;60% - medication orders</td>
<td>Three separate measures are reported:</td>
<td>For each measure, the numerator is the number of orders in the denominator recorded using CPOE</td>
<td>Measure 1: The provider must use PCC eRx to prescribe medications. If a patient’s medication history includes only medications entered as historical medications, that patient will not count in the numerator.</td>
<td>Any EP who writes fewer than 100 medication, radiology, or laboratory orders during the EHR reporting period.</td>
</tr>
<tr>
<td></td>
<td>&gt;30% - radiology orders</td>
<td>Measure 1: Number of medication orders created by the EP during the EHR reporting period</td>
<td>Measure 2: All radiology orders are recorded using CPOE, so all EPs should meet this measure. They do not have to be discrete orders.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>&gt;30% - Laboratory orders</td>
<td>Measure 2: Number of radiology orders created by the EP during the EHR reporting period</td>
<td>Measure 3: All lab orders are recorded using CPOE, so all EPs should meet this measure. They do not have to be discrete orders.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Measure 3: Number of laboratory orders created by the EP during the EHR reporting period</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- 3 sub-measures for this one MU objective
- Lab and radiology orders do not need to be discrete (but they will for other MU measures)
### Record Demographics

<table>
<thead>
<tr>
<th>MU Criteria</th>
<th>%</th>
<th>Denominator</th>
<th>Numerator</th>
<th>Meeting Measure in PCC EHR</th>
<th>Exclusions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Record Demographics (Preferred language, gender, race, ethnicity and date of birth)</td>
<td>50</td>
<td>Number of unique patients seen by the EP during the EHR reporting period.</td>
<td>The number of patients in the denominator who have all the elements of demographics (or a specific notation if the patient declined to provide one or more elements or if recording an element is contrary to state law) recorded as structured data.</td>
<td>The patient must have all five pieces of information entered in order to qualify for this measure. The demographic information can be entered in the EHR or in Partner (checkin, note, addpatient). The demographic data can be recorded before, during or after the reporting period.</td>
<td>None</td>
</tr>
</tbody>
</table>

- Be sure to record preferred language, race, and ethnicity (in Partner or EHR)
- % requirement increases to 80% for stage 2
- “Prefers not to answer” response counts
### Record Smoking Status For Patients 13+

<table>
<thead>
<tr>
<th>MU Criteria</th>
<th>%</th>
<th>Denominator</th>

<th>Exclusions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Implement one clinical decision support rule</td>
<td>N/A</td>
<td>N/A (Attestation)</td>
<td>N/A (Attestation)</td>
<td>Eligible professionals (EPs) must attest that they have implemented clinical decision support that can trigger alerts or clinical information when they encounter patients with certain diagnoses or treatments. This can be accomplished using PCC EHR Clinical Alerts</td>
<td>None</td>
</tr>
</tbody>
</table>

- Use clinical alerts for clinical decision support
Implement Clinical Decision Support Rule – Stage 1

Clinical Alerts Editor

- Asthma
- Diabetic Care Plan Review
- Medicaid
- Negative Rapid Strep
- Patient Has a Novarix Prescription and is Under 5
- Seasonal Flu Shot Reminder

Clinical Alert: Asthma

Patient is between 5yrs and 10yrs and has been diagnosed with asthma.

Actions to take:
1. Review asthma care plan with patient and/or family.
2. Discuss and recommend the annual flu shot.

<td>Number of office visits conducted by the EP during the EHR reporting period.</td>
<td>Number of office visits in the denominator for which the patient is provided (or declines) a clinical summary within three business days.</td>
<td>The Clinical Summary is the “Patient Visit Summary” which can be printed from the Reports menu or from the “Appointment Details” section at the top of the visit ribbon. You are now given the opportunity to mark the visit summary as refused if the patient does not want one printed. This will count towards the numerator. Patients with portal access are automatically counted towards the numerator.</td>
<td>None</td>
</tr>
</tbody>
</table>

- You are now given the opportunity to decline a visit summary and have this count toward the numerator.
- Patients with portal access automatically count toward numerator.

<tr>
<td>Use secure electronic messaging to communicate with patients on relevant health information. Objective 17 of 17</td>
<td>5</td>
<td>Number of unique patients seen by the EP during the EHR reporting period.</td>
<td>The number of patients or patient-authorized representatives in the denominator who send a secure electronic message to the EP that is received using the electronic messaging function of CEHRT during the EHR reporting period.</td>
<td>Patients should use the secure messaging functionality in PCC’s My Kids Chart patient portal.</td>
<td>Any EP who has no office visits during the EHR reporting period, or any EP who conducts 50 percent or more of his or her patient encounters in a county that does not have 50 percent or more of its housing units with 3Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period.</td>
</tr>
</tbody>
</table>

- Stage 2 measure only
- More than 5% of patients seen need to send secure message to practice using portal
Menu Objectives – Stage 1

- Choose 5 of 9 menu objectives
- One objective must come from public health list:
  - Submit (at least one test) to Immunization Registry
  - Submit (at least one test of) electronic syndromic surveillance data to public health agency
Immunization Registry Submission

• For stage 1, PCC can help you generate the required test to attest for this measure

• For stage 2, ongoing submission to IZ Registry is core requirement
  • EPs eligible for exclusion if Registry won't accept standard HL7 format, or cannot register practice for submission by start of reporting period
### Send Reminders to Patients

<tbody>
<tr>
<td>Sent Reminders to Patients</td>
<td>&gt;20</td>
<td>Number of patients 65 years old and older or 5 years old and younger seen by the EP during the EHR measurement period.</td>
<td>Number of patients in the denominator who were sent the appropriate reminder.</td>
<td>The reminders can be for appointment reminders or for preventive care. The reminders must be generated using the “Patient Reminders” tool in the EHR to qualify for the measure.</td>
<td>You can be excluded from meeting this objective if you have no patients 65 years old or older or 5 years old or younger whose information is in your certified EHR.</td>
</tr>
</tbody>
</table>

- Must use “Patient Reminders” under EHR reports menu
- Appointment reminders or preventive/chronic care
- Create desired patient list (restricting to active patients under 5), export list to .csv, send your reminders any way you'd like, then use “Reminder Log” to identify patients who were sent reminders
## Provide Patient Education Resources

Control Your Future™
Transitions of Care – Stage 2

- Medication reconciliation and summary of care for transitions of care both core objectives for stage 2
- New electronic transmission requirement for stage 2
  - >10% of transitions of care/referrals need to have summary sent electronically
  - New PCC functionality coming
Menu Objectives – Stage 2

• Choose 3 of 6 menu objectives
• PCC recommends choosing these 3 objectives:
  • Record electronic notes for >30% of unique patients seen
  • >10% of discrete imaging orders with radiology tests have scanned images attached to them
  • Record patient family history for >20% of unique patients seen
## Imaging Results Accessible Through EHR – Stage 2
