

Modified Stage 2 Objectives

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
Protect Patient Health Information Objective 1 of 10	N/A	N/A (Attestation)	N/A (Attestation)	Conduct or review a security risk analysis of certified EHR technology and implement updates as necessary at least once prior to the end of the EHR reporting period. The testing could occur prior to the beginning of the first EHR reporting period. However, a new review would have to occur for each subsequent reporting period.	None	None

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
Clinical Decision Support Objective 2 of 10	N/A	N/A (Attestation)	N/A (Attestation)	<p>Measure 1: EP must attest they have implemented five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. This can be accomplished using PCC EHR Clinical Alerts. CMS has listed these as other possible examples of clinical decision support:</p> <ul style="list-style-type: none"> • Clinical guidelines (consider developmental, ADHD, or depression screening templates built into EHR protocols) • Condition-specific order sets • Documentation templates <p>Measure 2: The EP must attest they have enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period. This is a built-in default for PCC eRx.</p>	<p>For the second measure, any EP who writes fewer than 100 medication orders during the EHR reporting period.</p>	<p>For an EHR reporting period in 2015 only, an EP who is scheduled to participate in Stage 1 in 2015 may satisfy the following in place of measure 1:</p> <p>Implement one clinical decision support rule relevant to specialty or high clinical priority, along with the ability to track compliance with that rule.</p>

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
<p>CPOE (Computerized Provider Order Entry)</p> <p>Objective 3 of 10</p>	<p>Measure 1: >60% - medication orders,</p> <p>Measure 2: >30% - Laboratory orders,</p> <p>Measure 3: >30% - Radiology orders</p>	<p>Three separate measures are reported:</p> <p>Measure 1: Number of medication orders created by the EP during the EHR reporting period</p> <p>Measure 2: Number of laboratory orders created by the EP during the EHR reporting period</p> <p>Measure 3: Number of radiology orders created by the EP during the EHR reporting period</p>	<p>For each measure, the numerator is the number of orders in the denominator recorded using CPOE</p>	<p>Measure 1: The provider must use PCC eRx to prescribe medications. Since all medications ordered through PCC eRx are ordered electronically, this will always report as 100%.</p> <p>Measure 2: All lab orders are recorded using CPOE, so all EPs should meet this measure. They do not have to be discrete orders.</p> <p>Measure 3: All radiology orders are recorded using CPOE, so all EPs should meet this measure. They do not have to be discrete orders.</p>	<p>Any EP who writes fewer than 100 medication, radiology, or laboratory orders during the EHR reporting period.</p>	<p>Alternate Measure 1: For providers scheduled to be in Stage 1 in 2015, more than 30 percent of all unique patients with at least one medication in their medication list seen by the EP during the EHR reporting period have at least one medication order entered using CPOE; or more than 30 percent of medication orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.</p> <p>Providers scheduled to be in Stage 1 in 2015 or 2016 may claim an exclusion for measure 2 (laboratory orders) and measure 3 (radiology orders).</p> <p>All providers need 60% of medication orders entered using CPOE in 2016 and 2017.</p>

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
<p>Electronic Prescribing</p> <p>Objective 4 of 10</p>	<p>>50%</p>	<p>Number of prescriptions written for drugs requiring a prescription in order to be dispensed (including or not including controlled substances) during the EHR reporting period</p>	<p>The number of prescriptions in the denominator generated, queried for a drug formulary and transmitted electronically using CEHRT.</p>	<p>The provider must use PCC eRx to prescribe medications. EPs will have the option to include or exclude controlled substances when reporting this measure. Provider entries in the Partner table need to be appropriately mapped to EHR users for this measure to report accurately.</p>	<p>Any EP who writes fewer than 100 prescriptions during the EHR reporting period.</p> <p>If there is not a pharmacy within your organization and there are no pharmacies that accept electronic Rx within 10 miles of your practice location at the start of your EHR reporting period.</p>	<p>Alternate EP Measure: For Stage 1 providers in 2015, more than 40 percent of all permissible prescriptions written by the EP are transmitted electronically using CEHRT.</p> <p>All providers must meet the measure threshold of >50% for 2016 and 2017.</p>

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
<p>Health Information Exchange</p> <p>Objective 5 of 10</p>	<p>Measure 1: N/A</p> <p>Measure 2: >10%</p>	<p>Measure 1: N/A (Attestation)</p> <p>Measure 2: Includes combination of:</p> <ul style="list-style-type: none"> - The number of Referral orders during the reporting period where the EP was the Provider of Encounter for the visit where the referral was ordered - The number of Summary of Care Records generated whereby "Related to an outbound transition of care" is selected. In this case there is no visit so the EP is the patient's PCP (assigned in Partner). If none, then EP is any provider who had a visit with the patient 	<p>Measure 1: N/A (Attestation)</p> <p>Measure 2: The number of transitions of care and referrals in the denominator where a summary of care record was created using CEHRT and exchanged electronically.</p>	<p>Measure 1: Attest "Yes" that PCC EHR has capability to generate a summary of care record which is possible via the "Summary of Care Record" report.</p> <p>Measure 2: When ordering a referral within an encounter, send a "Summary of Care Record" electronically to another provider via "Direct Secure Messaging". If related to other transition of care specify "related to an outbound transition of care" when generating the summary of care record.</p>	<p>Measure 1-2: Any EP who transfers a patient to another setting or refers a patient to another provider less than 100 times during the EHR reporting period is excluded from both measures.</p>	<p>Providers scheduled to be in Stage 1 in 2015 may claim an exclusion for measure 2.</p> <p>All providers must meet the measure threshold of >10% for 2016 and 2017.</p>

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
Patient Specific Education Objective 6 of 10	>10%	The number of unique patients with at least one office visit, seen by the EP during the EHR reporting period.	Number of patients in the denominator who were provided patient-specific education resources identified by the Certified EHR Technology. The patient-specific education resources can be provided before, during or after the reporting period.	The patient education must be generated using the EHR. In the Patient Education report, you must select one of the patient's problems and diagnoses, medications, or lab tests from the drop down menu. After the initial selection you may search on a different term, if desired. User must print or save in order for the patient to meet the measure.	Any EP who has no office visits during the EHR reporting period.	Provider may claim an exclusion for the measure of the Stage 2 Patient Specific Education objective if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1 but did not intend to select the Stage 1 Patient Specific Education menu objective. All providers must meet the measure threshold of >10% for 2016 and 2017.
Performed Medication Reconciliation for Transitions of Care Objective 7 of 10	>50%	The number of transitions of care during the EHR reporting period for which the EP was the receiving party of the transition. This includes both encounters for the EP they have identified as transitions of care (via component checkbox) and direct secure messages received by the EP	The number of transitions of care in the denominator where medication reconciliation was performed.	Use the Transition of Care (ARRA) component and click both the "Patient transitioned to my care" and "Medication Reconciliation was performed" checkbox. In addition, for all Direct Secure Messages received, press the "Reconcile" button. If you do not see the Reconcile button, you need a permission added.	Any EP who was not the recipient of any transitions of care during the EHR reporting period.	Provider may claim an exclusion for the measure of the Stage 2 Medication Reconciliation objective if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1 but did not intend to select the Stage 1 Medication Reconciliation menu objective. All providers must meet the measure threshold of >50% for 2016 and 2017.

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
Patient Electronic Access (VDT) Objective 8 of 10	Measure 1: >50% Measure 2: 2015 and 2016: At least one patient 2017: >5%	Measure 1 and Measure 2: Number of unique patients seen by the EP during the EHR reporting period.	Measure 1: The number of patients in the denominator who have timely (within 4 business days after the information is available to the EP) online access to their health information to view, download, and transmit to a third party. Measure 2: The number of unique patients (or their authorized representatives) in the denominator who have viewed online, downloaded, or transmitted to a third party the patient's health information	Measure 1: More than 50% of your patients seen in the reporting period need to have a MyKidsChart user with access to their records. If age-based privacy is enabled, the patient will not count in the numerator. Measure 2: At least 1 of your patients seen in the reporting period view, download, or transmit their health information. PCC will log these actions. Simply viewing this information in portal will count toward the numerator. The portal user's action can be completed before, during or after the reporting period.	Any EP that conducts 50 percent or more of his or her patient encounters in a county that does not have 50 percent or more of its housing units with 3Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period may exclude only the second measure.	Providers may claim an exclusion for the second measure if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1, which does not have an equivalent measure. All providers must meet the measure threshold of "at least one patient" for 2016, and >5% for 2017.

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
Secure Messaging Objective 9 of 10	2015: N/A 2016: At least one patient 2017: >5%	2015: N/A (Attestation) 2016 and 2017: Number of unique patients seen by the EP during the EHR reporting period	2015: N/A (Attestation) 2016 and 2017: The number of patients in the denominator for whom a secure electronic message is sent to the patient (or patient-authorized representative), or in response to a secure message sent by the patient (or patient-authorized representative).	2015: Attest "Yes" if the capability for patients to send and receive a secure electronic message with the EP was fully enabled during the EHR reporting period. Patients should use the secure messaging functionality in PCC's My Kids Chart patient portal. 2016 and 2017: Patients must use PCC's My Kids Chart to send secure messages to the practice	Any EP who has no office visits during the EHR reporting period, or any EP who conducts 50 percent or more of his or her patient encounters in a county that does not have 50 percent or more of its housing units with 3Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period.	An EP may claim an exclusion for the measure if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1, which does not have an equivalent measure. All providers must meet the measure threshold of "at least one patient" for 2016, and >5% for 2017.
Public Health Reporting Objective 10 of 10	Meet 2 of 3 public health measures	N/A (Attestation)	N/A (Attestation)	An EP scheduled to be in Stage 2 in 2015 must meet two of the following three measures: Measure Option 1 – Immunization Registry The EP is in active engagement with a public health agency to submit immunization data. PCC EHR currently submits immunization data to many state registries. Contact PCC support to determine if you are submitting to your state or if a connection can be established.	(See exclusions below table for this objective)	An EP scheduled to be in Stage 1 in 2015 may meet one measure All providers must meet two of the three measure options in 2016 and 2017.

MU Criteria	%	Denominator	Numerator	How to Meet the Measure in PCC EHR	Exclusions	Alternate Exclusions/ Specifications
				<p>Measure Option 2 - Syndromic Surveillance Reporting: The EP is in active engagement with a public health agency to submit syndromic surveillance data.</p> <p>Measure Option 3 - Specialized Registry Reporting: The EP is in active engagement to submit data to a specialized registry.</p> <p>“Active Engagement” may be demonstrated by any of the following options:</p> <p>Active Engagement Option 1 — Completed Registration [with Public Health Agency or Clinical Data Registry] to Submit Data</p> <p>Active Engagement Option 2 — Testing and Validation: The EP is in the process of testing and validation of the electronic submission of data.</p> <p>Active Engagement Option 3 — Production: The EP has completed testing and validation of the electronic submission and is electronically submitting production data to the PHA or CDR.</p>		

Exclusions for Objective 10: Public Health Reporting

Measure Option 1: Any EP that meets one or more of the following criteria may be excluded from this objective:

- Does not administer any of the immunizations to any of the populations for which data is collected by their jurisdiction's immunization registry or immunization information system during the EHR reporting period;
- Operates in a jurisdiction for which no immunization registry or immunization information system is capable of accepting the specific standards required for CEHRT at the start of their EHR reporting period
- Operates in a jurisdiction where no immunization registry or immunization information system has declared readiness to receive immunization data from the EP at the start of the EHR reporting period

Measure Option 2: Any EP meeting one or more of the following criteria may be excluded from the syndromic surveillance reporting measure if the EP:

- Is not in a category of providers from which ambulatory syndromic surveillance data is collected by their jurisdiction's syndromic surveillance system;
- Operates in a jurisdiction for which no public health agency is capable of receiving electronic syndromic surveillance data from EPs in the specific standards required to meet the CEHRT definition at the start of the EHR reporting period; or
- Operates in a jurisdiction where no public health agency has declared readiness to receive syndromic surveillance data from EPs at the start of the EHR reporting period.

Measure option 3: Any EP meeting at least one of the following criteria may be excluded from the specialized registry reporting measure if the EP--

- Does not diagnose or treat any disease or condition associated with, or collect relevant data that is collected by, a specialized registry in their jurisdiction during the EHR reporting period;
- Operates in a jurisdiction for which no specialized registry is capable of accepting electronic registry transactions in the specific standards required to meet the CEHRT definition at the start of the EHR reporting period; or
- Operates in a jurisdiction where no specialized registry for which the EP is eligible has declared readiness to receive electronic registry transactions at the beginning of the EHR reporting period.
