Important Improvements & Bug Fixes Coming Your Way

10.0

- RTPB optimizations re: alternative selection & substitutions
- Dispense qty carried forward as expected with renewed entries
- Weight-based Dosing for Augmentin & Bactrim - fixed (again!)
- Ordering Provider saves properly when modified
- Practice location zip code accurately used in pharmacy search
- Rx Queue refresh rates adjusted to only check during active use
- … and few behind the scenes improvements!

Scheduled for Sunday, June 16th
