Allergies Allergy List not yet reviewed

PCC currently prevents the use of Authy from any device while prescribing in pocketPCC, due to previous interpretations of the DEA Regulation.

As of February 2026: Use Authy on a Second Device (when prescribing from pocketPCC)

The DEA requires your second factor of authentication to come from a device other than the one being used for prescribing. PCC will now allow you to use your hard token OR the Authy app on a different phone, tablet, or watch to meet this requirement.

Resolved: Known Issues with Ordering Provider Fields

Select provider and location for this encounter

Please select a provider:
Type Last Name of Physician

Please select a location:

Start Date: 12/10/2025 Stop Date: 01/08/2026

Choose Ordering Provider:

Staff may have previously reported:

- ❁ Selected Ordering Provider in pop-up not saving
- ❁ Changes to Ordering Provider in edit screen not correctly updating in RapidRx
- ❁ Being prompted to select an Ordering Provider when one already exists in RapidRx
