Next PCC eRx Drop In Session:
Thursday, October 22nd
2-4pm EDT

Sproutin' up this Fall...

- ❁ **Reduce surprises at the pharmacy with PCC's new Predictive Prior Auth model**
- ❁ **See more dependable responses for Retail Rx Hx**
- ❁ **Help us prepare for NCPDP deadlines**

New Predictive Prior Auth Results in PCC eRx

The image displays three overlapping screenshots of the PCC eRx predictive prior authorization interface. Each screenshot shows a form with the following fields: Days Supply (30), Dispense (30), Number of Refills, Date to Fill, Prevent Renewal Requests, and Follow up provider. The interface also includes checkboxes for DAW, PRN, and Create 3 month supply. The predictive results are shown in a box on the right of each form:

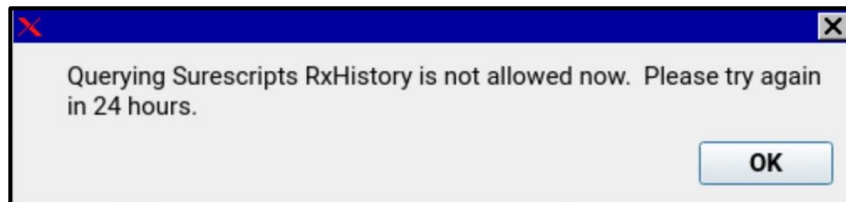

- Top Form:** Real-Time Pricing \$20.00, Prior Auth Unlikely (green text).
- Middle Form:** Real-Time Pricing \$20.00, Prior Auth May Be Required Confirm with Plan (orange text).
- Bottom Form:** Real-Time Pricing \$0.00, Prior Auth Likely (red text).

**Prescribe with greater confidence & reduce surprises
at the pharmacy through predictive prior authorization details

PCC will migrate to all required versions by October 2026 so we can get back to the fun stuff!

Homework:

Take Action Before PCC eRx Infrastructure Updates

- ❖ **Address Important Rx Queue Items:** Process pending prescriptions, review and sign agent prescriptions, and respond to relevant renewal requests, errors, and change requests. PCC will clear the rest with your 11.1 Update!
- ❖ **Ensure Your DEA License is Current and Valid:** If you have put off renewing your DEA license or know that it usually expires in September or October, verify its status and renew it if needed.

What's Next for PCC eRx

Coming in 2027...
