

Dashboard Exercises

Tim Proctor

User's Conference 2018

Here are some of the things you'll do during this practice session:

- Log into the Dashboard
- Identify your top priorities according to your Dashboard scores
- Identify at least one thing you could do to improve your performance in these top priority areas
- Experience some specific areas of the Dashboard we feel are most relevant

Instructions for newer or prospective PCC clients (online 6 months ago or less): You may not have enough of a data sample to achieve accurate results for some Dashboard measures related to practice revenue and A/R. If you want to see a sample of Dashboard results, please see a PCC staff member for assistance with using a demo login.

Exercise 1 - What are the top three priorities identified for your practice according to your pulse scores?

Priority #1: _____ Score: _____

Priority #2: _____ Score: _____

Priority #3: _____ Score: _____

For each of the priorities, identify at least one initiative you could take to try to improve on your results:

Priority #1: _____

Priority #2: _____

Exercise 5 - From the “Productivity” tab in the Dashboard, view your May year-to-date “Total Visits” productivity for “All Providers” and “All Locations”. How do you compare to previous years?

What is your percentage increase or decrease compared to last year?
____% increase/decrease

Pick just one provider and view their May year-to-date “total visits” productivity compared to prior years. Has it increased or decreased? View the trends for just the sick or well visit type.

Exercise 6 – Looking at your “Age and Sex Breakdown” for the HPV Vaccination Rate measure, how many total 13 year-old patients are overdue for at least one of their HPV vaccinations?

Total 13-year-old patients overdue : _____

What % of your total active 13-17 year-old patient population are overdue for their HPV vaccination series? _____

Exercise 7 – Which provider at your practice has the best Developmental Screening Rate for adolescents?
