Get the Most Out Of the CHADIS and PCC EHR Integration

Sasha Pavlovic - **PCC**
Interoperability Implementation
Sarah Bunning - **PCC**
Application Specialist

PCC
Pediatric EHR Solutions

Session Goals

1. Provide an understanding of Best Practices for preparation and configuration of the CHADIS/PCC integration
2. Introduce PCC Reports which can maximize patient and family participation while reducing steps for staff
3. Familiarize attendees with the benefits of integration

UC 2022

PCC
Pediatric EHR Solutions

Configuration - Visit Reasons

- Review and Configure Visit Reasons
  - Do you have specific visit reasons needed for the integration?
  - Have you requested the needed CHADIS visit types?
  - Are they all mapped appropriately?

PCC
Pediatric EHR Solutions

Configuration - Orders

- Review and Configure Screening Orders
  - Do you have appropriate Screening orders for questionnaires?
  - Have you linked CHADIS questionnaires to Screening orders?
  - Are Screening orders mapped to billing codes?

PCC
Pediatric EHR Solutions

Configuration - CHADIS

- Work with CHADIS to select and configure questionnaires
  - Patient age-ranges per questionnaire
  - Relationship to patient per questionnaire
  - Minimum days between assignments
  - Teen based questionnaires

Pediatric EHR Solutions

Why weren’t CHADIS Questionnaires assigned?

Yes, this is in fact the number ONE asked question related to the CHADIS Integration!

No Patient Portal = No Questionnaires!!

- Review Patient Portal Reports
  - What's my patient portal adoption look like?
  - Identify upcoming appointments without a linked portal account
  - Identify teens without their own portal account
