

Tour of the EHR

Nick Meunier
Implementation Specialist

UC
2024

Session Goals

- Walk through the journey of scheduling an appointment, checking in a patient, and charting a visit
- See how to configure the Appointment Book (Visit Reason Configuration & Provider Hours)
- Gain an understanding of Protocol Configuration, and customizing our Visit Protocols.
- Touch upon Clinical Alerts and some other options in our Configuration menu

Agenda

1. Schedule a same day sick
2. Patient Check-in
3. Chart using the Sick Visit Protocol
4. Appointment Book Configuration
5. Protocol Configuration
6. Clinical Alerts and other configuration options

Session Takeaways

1. An understanding how Visit Reason Configuration, Provider Hours, and Appointment Book all connect.
2. Familiarity with Protocol Configuration
3. Make sure your PCC EHR is customized for YOUR practice
