

Are You Using CHADIS Like It's 2025?

Sasha Pavlovic
Patient Engagement Specialist

What is CHADIS?

CHADIS is a web-based tool that provides parents and providers with online questionnaires and resources to help track a child's health and development. It helps to facilitate discussions about a child's well-being and streamline office visits.

Why Integration Matters?

- Improves Patient Care
- Ensures Complete Patient Charting
- Reduces Staff Burden
- Accurate Reporting
